

Press Release

June 24th, 2016
FOR IMMEDIATE RELEASE

2 MILLION BITBEAN AIRDROP AT PORCFEST LIBERTY FESTIVAL

Shawn Kent, Lead Developer of BitBean (aka Mr. Bean) will be making a special appearance at the 13th. annual Porcupine Freedom Festival at Roger's Campground in Lancaster, New Hampshire USA (www.porcfest.com).

On June 25th., Mr. Bean will be on-site at PorcFest mingling, causing a scene, and distributing 2 Million worth of BitBean Digital Cash, to Porcupine attendees. BitBean is a Digital Currency (over 1 year mature with no hard forks, no transaction roll-backs or blacklists) designed for scale-ability and lightening fast transactions! BitBean is a v2.0 pure PoS (Proof of Sprout) crypto currency with one of the strongest PoS networks, with consistently 65-75% of available supply SPROUTing. BitBean is the first digital currency to implement block sizes 20 times that of Bitcoin. BitBean transactions are also 30 times faster! With it's transaction focused design, BitBean can scale up and process over 1,300 transactions per second and is undergoing development to become a leading Digital Currency and payment network, that will cut-out the middle-man and provide real value to merchant's bottom line world-wide.

Why wait for Bitcoin? BitBean delivers Bigger Blocks and is faster than a Bean of Light! Beyond being a digital currency, Bitbean is also a trust-less, distributed, decentralized, peer to peer, and distributed computing network based on consensus. This core model is not just encoded in the core network code, but embodied by the principles of the development team (Bean Core). Why not discover BitBean for yourself? Even if you are not lucky enough to attend PorcFest and get some free BitBeans, you can still try it out, as it is open-source and freely available: www.bitbean.org
