- July 11th – 24/7 Live Assistant Support Applet Added to Website
- August 1st – Bean Core v2.0 Virtual Company Established

Bitbean had no IPO, ICO, or Pre-mine. Bean Core is a virtual company comprised of volunteers that receive a small stipend of Bitbean for their active participation and work. We are not funded by banks or large corporations. Please consider even a small donation to Team Bean as an encouragement to stay on target and press-on with this project. Team Bean (BitB): 2WcY6PfcopVHi23rGceWCn4F4b4UrWSPhw
* Dates are only reference points and do not indicate definitive release times. ** 32-bit Linux is the first BitBean wallet to run *without SSE2 support*.
Other Notes: Bean Core is comprised of volunteers that have other prior commitments, therefore time targets are not definite and may change.
Updates to our RoadMap may be published quarterly.
